REPUBLICAN RATIFICATION.

A GREAT DEMONSTRATION IN THE GRAND OPERA HOUSE.

BRINGING ADDRESSES BY MR. EVERTS AND SENATOR HAWLEY—UNBOUNDED ENTHUSIASM FOR BLAINE AND LOGAN.

The Republican ratification meeting held last night at the Grand Opera House was a demonstration almost without parallel in the history of recent politics, even in this city of phenomenally great gatherings. The Grand Opera House is the largest theatre in the city. The seating capacity of its audience-room alone is 3,000, and this was filled long before the hour was reached when the exercises of the grand ratification had their beginning. From 400 to 600 persons sat upon the stage, and twice or thrice that number, pressing in from the crowded lobby, filled every inch of the side aisles and swelled the number of persons who listened to the oratory of some of the foremost speakers of the Republican party to fully 5,000 persons. Meanwhile thousands, finding that they could not get within ear-shot of the speakers, contented themselves by marching in and out of the lobby behind bands of music and then waiting on the outside for chance to slip in and get a bit of the feast after the more fortunate others had departed, filled Paris, July 15.—The report that cholera had appeared at Lyons is denied. The Senate has passed a credit vote by the Chamber on Saturday for the relief of the cholera sufferers, and for the suppression of the contagion.

LONDON, July 15.—The American Consul here announces that vessels from Europe must have certified clear bills of health from the American consul at the port from which they sail, or they will not be allowed to enter American ports. The Austrian Government has asked the Porte to co-operate with it in the adoption of measures to prevent the introduction of cholera into Turkey and Austria.

ODESSA, July 15.—Circumstances of two weeks have exposed the unscrupulous conduct of vessels arriving from French Mediterranean ports or other ports at which cholera is known to prevail.

LISBON, July 15.—During the cholera epidemic vessels from infected ports are forbidden to land passengers or cargo at any port in Portugal.

The steamship Burgundy reached Sandy Hook shortly after 9 o'clock yesterday morning. She is direct from Marseilles, having left that port on June 28. The first case of cholera occurred in Marseilles two days after word. When Health Officer Smith boarded the vessel at quarantine Captain Dulich was surprised to hear that cholera was raging as an epidemic at Marseilles. He reported that all on board were well. The report will be made to the American consul, and probably the health authorities may determine she is a ship of 2,000 tons burthen and carried a cargo of tea, oil, mineral waters, barrels, rum, rum spirit, spiced essence, &c. The crew numbered 100, and belonged to men of Philadelphia, Boston and Baltimore.

Wood (a substance peculiar to certain trees) was carried in large quantities for carrying the germs of cholera. The wood on the Burgundy was removed from the vessel at quarantine, fumigated and thoroughly fumigated also. The crew consisted of thirty men. There were no passengers. Tonkin, where the ship made her first appearance in France, is only forty-five miles from Marseilles.

At the second meeting of the Free Soil Institute of North America this morning there was a large attendance. James McAllister of Philadelphia, read a paper on "To What Extent Can Kindergarten Be made a Part of the Public School System?" A prolonged discussion followed the reading of the paper, the prevailing impression being that the education of children deserved more attention than was generally accorded. Superintendent McAllister claimed that children are teachable almost from the time of birth. President Hamlin and others discussed "the purpose and scope of normal training suggested by Froebel." Miss Sarah A. Stewart of Milwaukee, read a paper on "The Organization of Efficient Training Schools." John Hitz of Washington, read a paper on "The Organization of Froebel's Kindergarten." Dr. W. C. Brewster, of Boston, read a paper on "The Benefits to be Derived from Children's Kindergarten." All papers were followed by discussions, and a discussion many interesting and novel ideas in relation to kindergartens was had.

At the third meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fourth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fifth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the sixth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the seventh meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the eighth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the ninth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the tenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the eleventh meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twelfth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirteenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fourteenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fifteenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the sixteenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the seventeenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the eighteenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the nineteenth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twentieth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-first meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-second meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-third meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-fourth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-fifth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-sixth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-seventh meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-eighth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the twenty-ninth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirtieth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-first meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-second meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-third meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-fourth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-fifth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-sixth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-seventh meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-eighth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the thirty-ninth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fortieth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fortieth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fortieth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.

At the fortieth meeting of the Free Soil Institute this afternoon, Mr. Blackman of Chicago gave an address in favor of the "fixed day" system, with explanations and illustrations, and the discussion was participated in by members of the party.
